

ENBDC meeting **April 29-May 1, 2011** Weggis, Switzerland
Scientific program

29.4.11	<u>Friday</u>
Morning	arrival at the hotel
12:00-14:00	Lunch
14:00-15:35	1st Session: Functional screen and sequencing (Chair: Momo Bentires-AIj)
14:00-14:45	Chris Lord Using high-throughput screening to dissect cancer phenotypes
14:50-15:35	David Adams Finding driver mutations in mouse models of cancer
15:35-16:00	Coffee Break
16:00-18:15	2nd Session: Hormones (Chairs: María dM Vivanco and Momo Bentires-AIj)
16:00-16:45	Cathrin Brisken Genetic dissection of hormonal control in mammary gland development
16:50-17:35	María dM Vivanco Hormonal regulation in human breast stem cells
17:40-17:55	Short talk 1: Eva Gonzales Suarez
18:00-18:15	Short talk 2: Robert Clarke
+	
18:15-20:00	Dinner
20:00	Poster Session 1
30.04.11	<u>Saturday</u>
09:00-12:00	3rd Session 3 Lineage tracing, asymmetric division (Chair: Giusy Bonizzi)
09:00-09:45	Nicholas Barker: Wnt Signalling, Lgr5 Stem Cells, Epithelial Renewal and Cancer

- 09:50-10:35 **Salvatore Pece:**
Role of Numb in stem cell asymmetric self-renewal and in breast carcinogenesis
- 10:40-10:50 *Talk by a sponsor (STEMCELL Technologies)*
Andrea Eskandar Afshari
Superior maintenance of human mammary epithelial progenitors in a new medium (Mammocultt) which supports the formation of mammospheres
- 10:50-11:15 Coffee Break
- 11:15-11:30 **Short talk 3: Aurélie Chiche**
11:35-11:50 **Short talk 4: Milan Obradovic**
- 11:50-13:30 Lunch
- 13:30-18:30 Organized Activity
- 18:30-20:00 Dinner
- 20:00 Poster session 2

01.05.11 Sunday

- 09:00-12:00 Session 4**
Tumor-Stroma interactions (Chair: Rob Clarke)
- 09:00-09:45 **Clare Isacke**
Screening for breast cancer metastasis genes in vivo
- 09:50-10:35 **Akira Orimo**
Evolution of tumour-promoting mammary stromal myofibroblasts
- 10:35-11:00 Coffee Break
- 11:00-11:15 **Short talk 5: Stephan Duss**
11:20-11:35 **Short talk 6: Richard Iggo**
- 11:40-12:00 General Discussion and Conclusions
- 12:00 Lunch and Departure
