

## **POSITION FOR POSTDOCTORAL SCIENTIST IN GONZALEZ-SUAREZ LABORATORY (CNIO)**

### **POSTDOCTORAL POSITION**

---

The Transformation and Metastasis group led by Dr. Eva González-Suárez at the CNIO <http://www.cnio.es>, in Madrid, Spain offers a postdoctoral position starting at January 2021. The laboratory of Dr Gonzalez Suarez is funded by national grants and a European Research Council ERC-Consolidator grant.

<https://www.cnio.es/en/research-innovation/scientific-programmes/molecular-oncology-programme/transformation-and-metastasis-group/>

The primary goal of Dr. Eva González-Suárez's laboratory is to understand the signaling pathways implicated in epithelial stem cell fate, their alterations during cancer and metastasis, and the interactions between tumor cells and microenvironment. We have a multidisciplinary approach using mouse models, cell cultures, clinical samples and molecular and cell biology techniques to translate basic research into clinically relevant results.

### **REQUIREMENTS**

---

We are looking for motivated postdoctoral scientists holding a PhD in a relevant discipline with interest in cancer biology. Candidates must have:

- An outstanding publication record in peer review journals, with at least one publication in Q1.
- Experience working with mouse models of cancer and patient derived xenografts.
- Technical skills in tumor immunology, lineage tracing and molecular biology.

### **WE OFFER**

---

- The opportunity to contribute to cutting-edge research projects and work closely with an international team of scientists and work in one of the leading labs in Europe.
- A 1-year full time contract, immediate start. Renewal based on performance.

### **APPLICATION**

---

- Applications must include a CV with a cover letter and contacts for 2 references
- Apply at <https://www.cnio.es/en/about-the-cnio/employment-opportunities/> and send an email to: [egonzalez@cnio.es](mailto:egonzalez@cnio.es). Please, clearly state in the subject of your email "Postdoc Position" and a link to your most outstanding publication.
- Starting date: May 2021
